Bill,

This is to verify that you did indeed recieve our signal on 8/8/88. Why so long to correspond? Thanks for tuning in! Best of luck in the future.. To answer some of your requests, WSEA is a 24 hour operation and we've just increased power from 1 thousand-non directional to 10 thousand South-East directional from Georgetown Delaware. Our general serving area is Sussex County Delaware, Ocean City & Salisbury Maryland, and South Jersey From Vineland to the Cape.. At nighttime we're 1 thousand watts directional. Our network affiliation is Satellite News & Music Network and we program oldies, EAGLES & ORIOLES sports.

Thanks again for your letter,

Jim McHugh
